<u>Testimonial</u>

Mr.
Max Kubierschky
Kanalstrasse 8
80538 Munich
Germany

was employed as a software engineer with us from 15 November 2002 to 31 January 2003.

His duties included designing and developing a module that calculates the kinematic and dynamic quantities of mechanical systems. On this basis he also designed and developed a modular system for the simulation and graphic representation of industrial machines. Development was carried out with Borland Delphi.

Mr. Kubierschky fulfilled the tasks he was assigned to our complete satisfaction. He was able to spot requirements on his own initiative that had not been specified, and he immediately incorporated these requirements into his development work. His day-to-day work-style was characterised by an independent and very creative approach.
Mr. Kubierschky also worked with amazing speed. We were very impressed with what he achieved.

Füssen, 07 February 2003
